GreenWave

Increase Profits. Streamline Commissions.

The only Enterprise-Grade Commissions Management software Platform

Stop manual processing.

Automatically validate
and payout commissions.
Let the machines do the processing.

Agent Compensation Guides and Production Reports

With GreenWave's robust reporting and custom query features you have access to:

- compensation guides for your agents' reference,
- clear and concise agent and override statements,
- a variety of tools for measuring and tracking your profitability to ensure that your agency stays competitive and viable for the years to come.

Carrier & Commission Data

Tired of always manually inputting rates and statement data from your carriers?

How about using multiple spreadsheets just to pay an agent? With GreenWave all of that **information is right at your fingertips**, no more "guessing or remembering" is needed!

Integration with Carriers, CRM and accounting

GreenWave integrates with carriers via ACORD XML, Excel and CSV imports to provide fast access to the commission and production data.

We can also integrate it with your **CRM, Agency Management and Accounting systems.**

Identify & Fix Unprofitable Areas

GreenWave allows you to **pinpoint unprofitable products and cases**, allowing you to cut your losses quickly, and efficiently.

Validate and Payout Commissions

GreenWave allows you to automatically validate, to process and to report the commissions. Each line of every commission statement from your carrier is automatically validated to ensure accuracy!

Reduce Processing Time

GreenWave alleviates a lot of the administrative burden shouldered by your personnel. **Stop slow manual data entry and manual commission processing!**

You could save $75,000/yr on Manual Operations with Greenwave Automation
