"We the People of the United States, in Order to form a more perfect Union, establish Justice, ensure domestic Tranquillity, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America."

It is true that every President of the United States swears to abide by and perform According to the constitution. But few, more so in recent times, have failed to do so. Primarily because they end up towing the party line and fail to pursue an individualistic approach. You are invariably left wanting while they try to woo the masses.

Both Republicans and Democrats score alike. A bit here and there when it comes to Governance. What we need today is a third-party or at least an independent thinker, candidates like Wallace, Anderson, and Perot of yesteryears could not win because of the political Mafia and two-party system.

If you cannot beat them, you must join them?

The United States held 36 Presidential elections between 1852 and 1992, of which Republicans won 21 and Democrats the other 15. The last Independent party attempt was Protests 1992 challenge, which was remarkably successful in winning popular votes.

The 2024 Presidential race for the White House is yet another opportunity for breaking barriers to building a future. We need independent minded leadership no matter what party it is. The person is the choice.

The Republican & the Democratic narratives have led us here 31,4 trillion in debt and don't blame either party it's both of them under tier leadership.

On the contrary, they have been disastrous leading the country from one conflict to another to shift the focus of citizens to unending wars. Individualistic achievement and development have been Compromised and America was humiliated in the pursuit of meaningless goals.

America is the undisputed leader of the free world, and Presidents in the recent past have failed us to hold the flag. It is time now that the next President of the United States should be well experienced with diverse multiple cross-cultural understanding of how and where the global community is moving.

He or She should have a background and know-how of how global business is conducted to strengthen the economy. Religious expertise alongside these qualities helps the new President lead the world. Recession and sectarian rivalry have taken their toll. The U.S. is doomed without this experience.

We have seen this enough to make a better choice. We have had Bush and Obama with zero business experience. Obama literally had no global experience except for the background of Muslim descent. At Least Bush had his father to advise him although that was not a good seen either.

Trump however had business experience albeit limited to the real estate sector. He ended up taking us down on the political and religious front. And Joe Biden, a career politician at best, lacks business experience. The recent down-slide of the U.S. economy is proof enough to see it all.

THE 2024 PRESIDENTIAL RACE

The moot question is 'What is it that should go in the making of the New President?' And the simple answer is 'Look at the years and quality of work he has put in to be where he stands.' Experience is the 'Best Teacher' after all. Vote for tomorrow to secure your future!

Transform your silence and stop repeating the mistakes you have done in the past! Your Time is Now! Choose a trusted friend! Daniel J Imperato is Announcing the forming of an exploratory committee. He is determined to run for the U.S. President in 2024 as a Democratic-Republican Independent constitutionalist no matter what party it is it is the person.

Vote the Bible!

WHO IS DANIEL IMPERATO?

Imperato is the most ideal candidate in the present circumstances to 'Revive the American Prayer'. He is a Learned Man of God who is more like a Trump & Biden stitched together. Imperato is a Papal Knight and holds an honorary doctorate in Foreign Affairs. His understanding of the world and its working is incomparable. None of these qualities had ever been seen in a U.S. President to date. With over 45 years of global experience concerning businesses, he is a responsible global citizen and recipient of several awards and honours, including the Papal Knight from the Vatican, Knight of Malta – Coptic Order, The Grand Priorate of Orden Bonaria for the U.S., Canada, Argentina, Spain, and much more.

THE RIGHT MAN WITH THE RIGHT EXPERIENCE

Imperato understands how business, politics, and religion integrate into global cultures. He is in fact a perfect mix of recognition and experience. Juanell Teague (Zig-Ziglar Trainor) discovered way back and aptly coined him as a "Street Smart for God." He is most qualified and bound to deliver with his wisdom and training. Imperato brings exceptional leadership and had run for U.S. Presidency in 2008, (old web site halls of congress with all old press releases) but then he was held back due to false cases filed against him by the prevailing political Mafia. His creative skills in global business, religious matters, and political affairs are noteworthy. America can immensely benefit from Daniel Imperato's unique experience.

Join the Independent Voice in America!

The 2024 Presidential election is crucial for America. The evidence establishes that both parties, the Republicans & Democrats have abandoned the cherished cause of democracy at some point or the other. And this danger could recur if congress fails to reform the system. Imperato appeals (contribute now) to all voters, believers, constitutionalists, supporters, and volunteers across all states to join the coalition and strengthen the RAPA (Revive America's Prayer Again) movement. His winning the Presidency will go a long way in reviving America. Make your vote count and vote the bible! It seems like America is finally ready for an independent minded candidate to lead this country no matter what the name of the party is!

SOCIAL SECURITY

Our companies and our people need to support our elderly today and SAVE OUR SOCIAL SECURITY (S.O.S.S.).

This is an emergency, and I believe that we can save Social Security by reforming the 501(c)3 charity system. One of the biggest abuses in America is charitable contributions. Many people have made money off of the hard work of the American people. place their wealth in charities that do little for the American people.

I propose a new charity system where the only charity that can receive unlimited contributions is the Social Security 501(c)3 Charitable Fund.

That way wealthy Americans, who wish to have the largest tax deductions through charitable donations, must donate back to the American people and the Social Security Charitable Fund. In addition, this will hold accountable the principals of our current charities for their distribution of funds. It is necessary to close down the rest of them that are abusing our system, and taking advantage of our people's hard-earned money.

Charities that maintain honest business practices will be categorized numerically, with a rating system, and preference will be given to the ones that direct money towards America, and its people first.

HEALTHCARE

Imperato propose a surcharge on all new drugs be contributed by the drug companies to the US healthcare system. In addition, a percentage will be added to the wholesale costs of the drugs that will be contributed back to the healthcare system. It is about time drug companies support our healthcare needs in order to ensure healthcare for all American citizens.

EDUCATION

We, the United States of America, were the leading country in the world for education at one time and we need to get back to being number one. One of my major initiatives will be a US online education system, which I have begun already to develop with an education platform that will be supported by a shared computer portal of educational courses and content. It will be provided by a large number of universities, one program at a time.

These programs and classes will be installed on our educational portal and will represent a gesture of moral and social responsibility by and between all universities which will collectively create the greatest online free education system in the world for the underprivileged people and for people who can't afford education.

VOTE FOR THE RIGHT CANDIDATE TO REVIVE AMERICA
