KNOWLEDGE & OVERALL BUSINESS PERFORMANCE TO DRIVE
FINANCIAL SUCCESS IN THEIR BUSINESS!"**

HOW A BETTER UNDERSTANDING OF YOUR BUSINESS'S FINANCIAL REPORTS WILL BENEFIT YOU & YOUR BUSINESS!

Solutions To Help You Avoid The Biggest Risk Threatening Your Business

The most common reason businesses fail is their lack of financial management expertise, even when they have an Accountant Now, most Accountants provide a great service, however, they do have a tendency to confuse us when it comes to financial reporting, and most of us have a habit of leaving the meaning of those financial reports to them, and as business owners, **that can spell disaster!**

Without proper financial reports and regular reviewing with an outside professional, the risk of going out of business grows exponentially as each year passes.

Increased Confidence & Knowledge

Once you are under way, you'll gain confidence and understand financial reports quickly & easily. This will keep your business on track across your sales, profits and cash flow so your business and the value of it grows.

Get The Numbers Behind The Numbers Based On The 6 Profit Drivers Of Every Business

If you've always wanted to know "what your monthly sales break-even point is, how many sales you have to make to break even or if your business is going forward or back, analysing the 6 drivers of profitability makes it easier for you to set financial strategies for improvement.

Cost-Effective Chief Financial Officer

With no fixed contract and easy monthly payments you'll have access to your own independent Chief Financial Officer (CFO) without the high salary cost. For about half the cost of a Bookkeeper, you'll have a highly skilled accountant keeping track of your business that will meet with you and pinpoint areas that are doing well in your business and show you areas for improvement.

Track Individual Profit Areas

Not only will you get an overall financial picture of your entire business, you'll also get up to 5 separate department reports so you can track profitability in individual departments.

Q1. If you could have financial reports that precisely identify the areas of profit and cash-flow improvement, how much value do you think it would add to your business in 6 months?

A. \$50,000 \$100,000 \$150,000 Over \$150,000

Q2. Are you being proactive and financially intelligent in knowing what your monthly breakeven is, knowing what your monthly cash flow is, or just hoping for the best that it will all work itself out?

A. Yes, I’m proactive No, I’m reactive Not Sure

Q3. Do you think there are more profits lying silently in your business, but are not sure how to recognise or extract them to increase your cash flow and profits?

A. Yes No Not Sure

Call for A FREE Profit Improvement Consultation (PIC) valued at \$497 now! (South East Queensland resident businesses only.)

Q4. Based on your experience, do you think a regular review with a independent professional debriefing you on areas of your business that drive profitability, cash flow and business value to avoid potential bankruptcy, the fear of losing your business and to protect your private assets would benefit you?

A. Yes No Not Sure

If you said “YES’ to 2 or more, Congratulations, the Financial Monitoring Program can benefit you so take action today!
