HAPPENINGS OF THE DAY	<p>After an early Breakfast we will travel by bus to the ancient site of Saqqara, home of the Step Pyramid attributed to King Zoser. The Serapeum Another highlight of our day will be a visit to the newly opened Serapeum, a huge subterranean complex. A long hallway that runs in east/west directions is flanked by chambers that house gigantic, highly crystalline stone boxes. Many believe that Bulls associated with the Apis Bull cult were buried in them. However, no bulls or human bodies were found in any of these huge boxes which were made with an extremely advanced technology. When excavated in 1852, all twenty-four boxes, weighing 60-80 tons, had been plundered. Their lids had been pried loose and the contents taken. Our collective research shows that these boxes are far more ancient than the writings found on and around them, and were an integral part of a huge energy device.</p> <p>After enjoying a buffet lunch at the Palm Club we'll visit Memphis, or Menefer, Memphis was believed to be under the protection of the god Ptah, the patron of craftsmen. Het-Ka-Ptah, an inscription found on a stela at Memphis, meant the "Place of the Projection of the Principle of Ptah" or the "Place where the Projection of Ptah Manifested." The Greeks mistranslated this inscription into Hi-Gi-Ptos which became Aegyptos, from where our modern name for Egypt was derived. The Greeks also changed the name of this ancient capital city the Greeks from Men-Nefer (The Generation of Harmony) to Memphis.</p> <p>Back to hotel relax Dinner then evening private time.</p>

HAPPENINGS OF THE DAY	<p>We will leave directly after breakfast to drive to Abydos for our visit the Seti I Temple, and the very ancient Osirion Temple. We will discuss the symbolism as we view the masterful craftsmanship of the beautiful depictions that cover the walls of the ancient Seti I temple, that is dedicated to Osiris.</p> <p>Behind this Temple lies the megalithic Osirion, similar to the Valley Temple in Giza, that the indigenous tell us is 35,000-50,000 years old or more. It is here that several depictions of the Flower of Life can be seen on the huge pillars.</p> <p>Local villagers claim that the water that accumulates in this structure has valuable healing properties. After lunch in Abydos , we'll drive to Dendera to visit the incredible Temple of Hathor. Star maps depicted on the ceilings in this temple, and the replica of famous Dendera Zodiac (the original is displayed at the Louvre in Paris) point to the ancient origins of astrology and superior knowledge of our universe. Hathor (Het-Hert), the Neter who personified motherhood, beauty, sexuality, love, joy, harmony, dance and music was often associated with the planet, Venus. She was known as the Lady of the Stars, and represented the nurturing solar food of the Sun's rays, required for birth, growth and renewal. What other secrets lie within this magnificent structure?</p> <p>Back to Luxor to Check in to the Nile River Cruise</p>
